Internet of Things(IOT) Research Group

Contact: Dr. Mongkol Ekpanyapong, <mongkol@ait.asia>

IOT is a research group under Microelectronics and Embedded Systems Field of Study, Industrial Systems Engineering Department, School of Engineering and Technology. It is under the supervision of Dr. Mongkol Ekpanyapong. This research area spans from Embedded Systems Design, FPGA Design, High Performance Computing, Computer Vision, and Agritronics. IOT research group also has a close collaboration with AIT Vision Laboratory and Internet Education and Research Laboratory (InterLab).
